

Red Lorry Yellow Lorry, West Wakes Up

The west wakes up to find completeness in half-truth
The west wakes up to fall asleep
When I find it shows me sense is all forgotten
Then I'll wait then I'll wait

For a sign hope for predictions
The west wakes up it's easy to be gone

To keep my wishes in your pocket every night
Won't help me now won't help me sleep
Realize the world outside is an illusion
Where I wait where I wait

For a sign hope for predictions
The west wakes up it's easy to be gone
For a sign hope for predictions
The west wakes up it's easy to be gone

For a sign hope for predictions
The west wakes up it's easy to be gone
For a sign hope for predictions
The west wakes up it's easy to be gone

The west wakes up...
