

Redd Kross, 1976

Feels so good to see you here
Nothing ever seems to happen in this place, now
Tomorrow's bright, or so they say
Forget the days of future past, because now it's 1976

Hey there baby, say, what's your sign
I could tell it was the same as mine
Tube top momma nearly six feet tall
She is the fox of the shopping mall
This is the era, this is the time
You know you've got to boogie 'cuz your platforms are fine

Feels so good to see you here
Nothing ever seems to happen in this place, now
Tomorrow's bright, or so they say
Forget the days of future past, because now it's 1976

Afros and apple pie
Camaro sports cars, gasoline lines
Everything is red, white and blue
We hate it here 'cuz there's nothing to do
Until some friends on a space trip
Flew in on the free bird, now can you dig

Feels so good to see you here
Nothing ever seems to happen in this place, now
Tomorrow's bright, or so they say
Forget the days of future past, because now it's 1976

Baby can't you hear it
Baby can't you feel it
Baby got the spirit
Baby can't you hear it
Baby can't you feel it
Baby got the spirit

Feels so good to see you here
Feels so good to see you here
Feels so good to see you here
1976

Feels so good to see you here (Feels so good)
Feels so good to see you here (Just to see you here)
Feels so good to see you here
1976

Feels so good to see you here (I feel good)
Feels so good to see you here
Feels so good to see you here
1976
