

Redd Kross, Love Is You

You're my love
You're my happiness
You're the one
You're the reason why it's true
oh yes you
You're the sun
All it's happiness
You're my love
and all my love is you
oh yes you

Won't you stay just a little while
We can be friends
Share a smile
Loving you is all I need
When you say that love is me
You're the smile
Reflections of my face
In your eyes
I know it's always you
oh yes you
You're my love
You're my happiness
You're the one
You're the reason why it's true
oh yes you
You're the sun
All it's happiness
You're my love
and all my love is you
oh yes you

Won't you stay just a little while
We can be friends
Share a smile
Loving you is all I need
When you say that love is me
