

# Rediscover, Face Down

From the locker room of our high school  
to the walk in closet of your bedroom  
your parents disapprove  
Oh, loves too cool  
And I'm just too damn smooth

I'm jumping off the roof of my room  
I'd break both of my legs to get to you  
I've worn out my welcome in their home  
So I go when their asleep, GO!

Girl get dressed  
I'll meet you at midnight  
We're gonna share a dance under  
the streetlights  
Fuck your parents  
and your brothers bedtime  
This will be our last dance tonight

So farewell to your parents  
Because this will be the last time  
that they ever see us alive

From the backseat of your parents car  
To your best friends house where  
they think you are  
your parents disapprove  
oh, oh I love you  
man, if they only knew

I'm jumping off the roof of my room  
I'd break both of my legs to get to you  
I've worn out my welcome in their home  
So I go when their asleep and they'll never know

Girl get dressed  
I'll meet you at midnight  
We're gonna share a dance under  
the streetlights  
Fuck your parents  
and your brothers bedtime  
This will be our last dance tonight

So farewell to your parents  
Because this will be the last time  
that they ever see us alive

Expect a knock on your window  
At 12 o'clock we'll be alone  
Asleep, and now I'm home  
Your parents will never know

She says "don't go...  
just don't go. I can't make it alone"  
she says "don't go...  
just don't go. cause i can't  
make it on my own."

Girl get dressed  
I'll meet you at midnight  
We're gonna set a dance under  
the streetlights  
Fuck your parents  
and your brothers bedtime

This will be our last dance tonight

Yeah so fuck to parents  
Because this will be the last time  
that they ever see us alive

Its down the mud  
I'm holding a gun  
I'm sitting at the bottom of the ocean  
my love  
the only one  
with her arms wide open  
She says "don't go, just don't go  
I cant make it alone."  
She says "just know, that if you go, well then i will follow."

She says "don't go, just dont go  
cuz i cant make it on my own"
