

Redlightmusic, Turn It Over

I promise
Your life will change for good
Just have faith and turn it over
I promise
My message sets you free
Just have faith in me

Turn it over, walk beside me
Take a look at where your life is headed
I can make a difference if you
Please give me the chance; I want to soothe your soul
Just have faith in me and turn it over

I promise
I will return again
Just have faith and turn it over
I promise
I'll walk through hell for you
Just have faith in me

Turn it over, walk beside me
Take a look at where your life is headed
I can make a difference if you
Please give me the chance
Turn it over, walk beside me
Take a look at where your life is headed
I can make a difference if you
Please give me the chance; I want to soothe your soul
Just have faith in me and turn it over

Turn it over walk beside me
Take a look at where your life is headed
Just have faith in me

Turn it over, walk beside me
Take a look at where your life is headed
I can make a difference if you
Please give me the chance
Turn it over, walk beside me
Take a look at where your life is headed
I can make a difference if you
Please give me the chance; I want to soothe your soul
Just have faith in me and turn it over
