## Redman, Rock Da Spot

(W.. F.. D.. S..) Aiyyo, aiyyo check this out man Hah, aiyyo hah-hah Aiyyo aiyyo, hah-hah Nahnah, aiyyo, aiyyo

I'm the bomb, ringin off all types alarms

My palms, be swift with the pen like Lynn Swann's

Aggravated assault, against an MC

Beat him down with the mic and all types of pedigrees

It's mad real in Da Bricks, plus I roll thick

You can quote this, I'm the Moby Dick of dopeness

Bitch, walk the walk if you talk the talk

I DK New Jerz, and DK-New York

I don't push a lot of vehicles, but I push a used one

With a tape deck, if it's feasible

Tell the truth, I don't own a Lex Coupe

But I get you souped when I rock respect due

I'sa nice nigga that wanna get diced

Slice the mic device like the body of Christ twice

E Double if you feel me hit me once

(A breaker one, a breaker two)

Cause trouble to you family and friends

Let me cut the bullshit, just hand me yo ends

Got caught out there cause you a Mack without 10

Punch you in your chin

The rucker, bringer, live from Hell, but stay

cooler than a double L

Turn a felony to a misdemeanor

Now the court subpeonaed me to get my act cleaner

Fuck that, still walk out holdin my strap

Blunt, grabbin my weiner

Now first of all I go for broke

Check the third guarter note, I make you feel like your water broke

Can't tell whether male or female

I fucked up your frame well, the monogram can't tell

All aboard my balls, cause my dick don't got a lot of room

for the rest of y'all

Grab on my pubics, let my music take flight

Rock indo and out-do, dick run in and out yo'

bitch, about nine inch up the clit

Can you feel me comin, yeah I usually make em shit

I shines MC's up for auction

So I can sell em on Saturday, Keith put the bat away

Let's lay in the cut, so we can break his whole anatomy down

and turn into an ass-kicking holiday

Word, I rolls with the Funklord

With more flavors than them motherfuckers on

them Benetton billboards

He's bleeding get the gauze

He shoulda knew Def Squad crew is who I kill for

Push the clip in, slide the top back

Make sure it's off safety, in case he wanna counteract

Shit like that get me vexed

So I crack your ass like corn while your bitch crack my Beck's

Hah-hah

One deuce! One deuce

Aiyyo, catch this picture, of me in the mixture

So you won't forget the, black Jack the Ripper

Sorceror offin y'all with techniques

A universal lingo, with the odd speaks

Control more blacks than Harlem week, freak

Smokin that leak at full peak

Peace to Greg Street, and underground radio technique College radio, no I mack shit like Maceo Yeah, the East coast West coast dick giver I oughta be an alkie, the way I hit liver Deliver, the milk to your door, real raw Shit you never seen before So when you come inside, and do the front Watch the double-pump shotgun and please don't run Relax your minds, let your concious be free And get money, and G's and roll these trees

...

This is DJ SAYWHAT?? on this motherfucker. Comin to you live from WFDS radio from da Brick City. [continued on "Welcome (Interlude)"]
