

REDZED, Agony

Oh, I keep making choices
And they all not in the plan
Why don't you send in forces?
I think I'm turning all mad
'Cause I don't know, don't know what I wanna be
Everyone is looking at my face like they onto me
Stay low, they all follow me
Think I might be down here in this place in the agony

In the agony
Think I might be down here in this place in the agony
Ah...

I'm your messiah
If death is only thing you desire
Oh, let me say last goodbye
I put the cockroach in your ear

I drink 'til I sleep, drink in the day
And if I could, I'd prolly put that liquor in my vein
I'm down on my knees, I feel I'm deceased
I don't wanna feel this way

I don't give a damn 'bout anyone else but me (But me!)
I don't give a damn 'bout anyone else but me (But me!)

I'm your messiah
If death is only thing you desire
Oh, let me say last goodbye
I put the cockroach in your ear

Hate being rejected
So I won't, won't reject you
