

# REDZED, Blood Spillin' On Concrete

Uh  
Pay close attention  
Pay close attention (Stupid bitch!)

Pay close attention  
Blood spillin' on a concrete  
Pay close attention  
Blood spillin' on a concrete

It's an old town sadist, fuck, I'm the baddest (Uh)  
Bitch, suck a dick, I'm a dope filled up menace  
For many years didn't smoke on the lettuce  
But my mind's still blown like I copped all new feathers  
It's the geist, keep your feet undercover  
I'm a lost soul, bitch, I float and I hover  
Coming in peace just to bite on your meat  
I'd like to see your blood spillin' on a concrete

Pay close attention (Stupid bitch!)  
Blood spillin' on a concrete  
Pay close attention  
Blood spillin' on a concrete

I won't sleep 'til my enemies are weak and weap defeat  
Nock 'em off their feet to the concrete  
Crank the heat up all the way, lion cook 'em like a sheep  
Talking that shit on my name? Well, you can kiss my ass cheeks  
Ho, you is so last week, cannot catch up to me  
Acting fool on anyone I let the havoc wreak  
Even my apprentices horrendous, tempest, so tremendous  
Sending me any incentives, then I'm sending you to the dentist

I'll let the dead bite, turn to dark side  
Fanner up in the tub, breathing nitrous oxide  
Walking in night, then it fucked my eyesight  
Making me feel right when I cut, then I sigh  
I know your wife like the bass, let her masturbate  
To my rhymes and all the bangs, they all custom-made  
Stupid bitch, I'm in the mode when I cuss, the hate  
I'm a Mozart of the doombap, you just too late

I'm a earworm, I make your eardrum rumble  
Watch your step around me, don't stumble  
World crumbling if you're making a wrong move  
I'm the wrong dude to fuck with; give strong cues?  
This right here? Is heavy artillery  
One blast is leaving you with a whiplash injury  
Endless possibilities with my abilities  
Right click the trash, empty it out, mmm... victory
