

# REDZED, Paranoid

When I was so paranoid  
I used to think that I am not  
And all the voices in my brain  
I should have put the needle in

And I need another breakthrough  
And I don't give a fuck about you  
And I need another breakthrough  
I need another breakthrough, I need another break

Give a fuck about you, need another breakthrough  
Give a fuck about you, need another breakthrough  
Give a fuck about you, need another breakthrough  
Give a fuck about you, need another break

When I was so paranoid  
I used to think that I am not  
And all the voices in my brain  
I should have put the needle in

And I need another breakthrough  
And I don't give a fuck about you  
And I need another breakthrough  
I need another breakthrough, I need another break

Give a fuck about you, need another breakthrough  
Give a fuck about you, need another breakthrough  
Give a fuck about you, need another breakthrough  
Give a fuck about you, need another breakthrough  
Give a fuck about you, need another breakthrough  
Give a fuck about you, need another breakthrough
