

REDZED, Paranoid

When I was so paranoid
I used to think that I am not
And all the voices in my brain
I should have put the needle in

And I need another breakthrough
And I don't give a fuck about you
And I need another breakthrough
I need another breakthrough, I need another break

Give a fuck about you, need another breakthrough
Give a fuck about you, need another breakthrough
Give a fuck about you, need another breakthrough
Give a fuck about you, need another break

When I was so paranoid
I used to think that I am not
And all the voices in my brain
I should have put the needle in

And I need another breakthrough
And I don't give a fuck about you
And I need another breakthrough
I need another breakthrough, I need another break

Give a fuck about you, need another breakthrough
Give a fuck about you, need another breakthrough
Give a fuck about you, need another breakthrough
Give a fuck about you, need another breakthrough
Give a fuck about you, need another breakthrough
Give a fuck about you, need another breakthrough
