

# REDZED, PSYCHOSOMATIC

I'm the sickest  
Got no res

Got no respect, no respect  
Never say please, I'm gonna smack  
Smack, smack, smack you in the face  
Yeah, this riddim killing, no cap  
Got no respect, no respect  
Never say please, I'm gonna smack  
Smack, smack, smack you in the face  
Yeah, this riddim killing, no cap

My world is black like Sabbath, bass is fat like mammoth  
I'm a jazz jackrabbit, precious stone is my habit  
You can tell that I'm on it, clenching teeth that I vomit  
Then I move supersonic, putting dope in gin tonic  
I'm the sickest, I'm the illest, biggest stone up in my kidneys  
Popping on the killers, turning people in the villains  
I'm a boss, boss, only when I got no fucking feelings  
No affection, ice-cold, stimulation Ritalins

No respect, no respect  
Never say please, I'm gonna smack  
Smack, smack, smack you in the face  
Yeah, this riddim killing, no cap  
Got no respect, no respect  
Never say please, I'm gonna smack  
Smack, smack, smack you in the face  
Yeah, this riddim killing, no cap

What the fuck?!

My world spins, fidget spinner, fucks know that I'm winner  
Dirty sound, no beginner, could make, eat you for dinner  
I'm hot, that flow spitter, my life is so bitter  
I don't wanna be facing my fate, I'm no quitter  
Jumping from a rooftop, no broken legs  
I'm on Nos, surviving everything, I'm madder than Max  
All the shit that I keep doing is all better than sex  
I'ma keep doing this 'til I die and won't ever rest

Got no respect, no respect  
Never say please, I'm gonna smack  
Smack, smack, smack you in the face  
Yeah, this riddim killing, no cap  
Got no respect, no respect  
Never say please, I'm gonna smack  
Smack, smack, smack you in the face  
Yeah, this riddim killing, no cap

Psychosomatic illness, it's the pain disguised  
I'm just depressed or I'm manic and it's breathing I despise  
I'm worst body mechanic, and it's bringing me demise  
Call a fucking paramedic, let them angels be allies

What the fuck?!  
What the fuck?!
