

REDZED, Suicidal Hippie

I'm sinking deeper in my thoughts
Better go away, I could hurt you
These things, they'll always be my flaws
You can love or hate me, I urge you
To stay with me 'til end of time
Turning all insane, and I thought you
Would save me from the depths of life
Standing in the rain like a statue

I'm suicidal hippie, I want to go to space and die
Suicidal hippie, oh, I just want to fly and die
I'm suicidal hippie, I want to go to space and die
Suicidal hippie, oh, I just want to fly and die

I'm way too paranoid, I see
People talking trash all about me
Give me a medicine, I need
To be on the moon and be carefree
I don't know what I'd be if I wasn't a loner
Prolly make all them follow me
I would have let them see what's in head of a stoner
Let 'em take what is left from me
