

Reef, Back In My Place

I was the one who could eat a full plate

You picked me up and put me back in my place

Slow is the path that does lead to addiction

Bored is my mind and it's spoke disillusion

No matter where you are

No matter near or far

I've seen the place I want to be

It's one step further

Just like Marathon man

It seems so true to me

I've seen the place I want to be

And I can't get there

You are my days

And my nights are spent in chase

You entered me

And my life was replaced
