

# Reef, Come Back Brighter

Been down, but I've come back brighter,  
Sun hurts me, if I try to fight her,  
I won't be sat here waiting,  
I won't be sat here waiting,  
I won't be sat here waiting for it,  
So come and take me on.

Sometimes, the black hole's inside ya,  
But if you can just lighten up yourself,  
It will make you stronger,  
I won't be sat here waiting,  
I won't be sat here waiting,  
I won't be sat here waiting for it,  
So come and take me on.

Get up...

I've been down, but I've come back brighter,  
Sun hurts me, if I try to fight her,  
I won't be sat here waiting, (x3)  
For you, so come and take me,  
So come and take me on and on and on...  
I've been down...
