

Reef, Won't You Listen?

we're up and down we're all around
we have a mission in every town
we're walking light
we're side by side
we have a mission to make you listen

have you got a song got a song
got it coming on

what did you think that we were like
we're walking through a life
we're walking through a life

we're strolling on we're not alone
we have a reason so won't you listen

we're never going come here again
