

## Reel Big Fish, Hate You (2007)

Oh, shitfuck!

Eat shit, fuck you!

Hey hey, everybody  
Look who's on TV  
Look who just got famous  
Don't you know it should have been me?

I'm not really bitter  
I'm not really mad  
I love to see other people get  
Everything I ever wanted to have

Well, I don't really care  
How big they get

I hate you, fuck you, leave me alone  
I hate you, fuck you, leave me alone  
I hate you, fuck you, leave me alone  
I hate you, fuck you, leave me alone  
Why cant I be cool like that?

I used to have a girlfriend  
I treated her so bad  
She went out and found another lead singer  
Maybe she just likes guys in bands  
Well, I give up on everything  
All my dreams are dead  
Maybe I'll get a shotgun, yeah  
And try to blow her right out of my head

Everybody says  
"How come you ain't made it yet?"

I hate you, fuck you, leave me alone  
I hate you, fuck you, leave me alone  
I hate you, fuck you, leave me alone  
I hate you, fuck you, leave me alone  
Why can't I get my girl back?

I knew you wouldn't understand  
Just what I'm trying to do  
'Cause you're not fucking me  
And I'm so glad that I'm not fucking you

One, two, three, four!

Well, it's my problem  
There's nothing I can do  
And if they're gonna go and do it to me, well  
I guess I'm gonna have to go and do it to you

I don't really care  
How much you cry

[illegible]

Why can't anything go my way?
