

# Reel, Lift Me Up

In the still of the dark of the night  
There's a place, I come out  
See the lights on the town  
I'm looking down

Yeah the moon is out tonight  
Turn around look up see it smile  
Feel the wind in your hair  
I'll take you there

(Chorus)

You lift me up, when I needed a friend  
You lift me up when I'm close to the edge  
'Cos it'll all come round in the end  
And I'll lift you up when you need a friend  
Lift me up bada-baduh bada-baduh  
Lift me up bada-baduh bada-baduh

I've been down  
I've been out of my mind  
I was there and I know what it's like  
Like the fool on the hill  
I'm standing still

So come with me to my hideaway  
Lay you down in my arms again  
Feel the wind in your hair  
I'll take you there

(Chorus)

You lift me up, when I needed a friend  
Lift me up, when I'm close to the end  
'Cos it'll all come round in the end  
And I'll lift you up, when you need a friend

So come with me to my hideaway  
Lay you down in my arms again  
Feel the wind in your hair  
I'll take you there

(Chorus)

You lift me up, when I needed a friend  
Lift me up, when I'm close to the end  
'Cos it'll all come round in the end  
And I'll lift you up, when you need a friend  
Lift me up bada-baduh bada-baduh  
Lift me up bada-baduh bada-baduh  
Lift me up bada-baduh bada-baduh  
Lift me up bada-baduh bada-baduh

You lift me up, when I needed a friend  
Lift me up, when I'm close to the end  
'Cos it'll all come round in the end  
And I'll lift you up, when you need a friend  
You Lift me up  
Lift me up  
'Cos it all comes round in the end  
And I'll lift you up when you need a friend  
You lift me up (bada-baduh bada-baduh)  
You lift me up (bada-baduh bada-baduh)  
You lift me up (bada-baduh bada-baduh)  
You lift me up (bada-baduh bada-baduh)  
'Cos it all comes round in the end  
And I'll lift you up when you need a friend

Lift me up
