

Reel, You Take Me Away

It's the way that you feel
and the way that you love me
Baby I can't let go
Don't know how you do
but you do when you touch me
baby I want you to know

You give me something
that nobody gave me before
now I know what love is for
Baby don't you know

(Chorus)
You take me away
on a journey so far
You take me so high
baby how can I lie
Don't bring me down
Don't bring me down
I'm flying baby what can I say
You take me away

When I'm in your arms
you hold me closer
I've never felt so sure
I made up my mind
From the moment you kissed me
baby I just wanted more

You give me something
what can I give to you
you make me come alive it's true
Baby don't you know

(Chorus)
You take me away
on a journey so far
You take me so high
baby how can I lie
Don't bring me down
Don't bring me down
I'm flying baby what can I say
You take me away

You take me, take me, take me

You give me something
what can I give to you
You make me come alive it's true
baby don't you know

(Chorus)
You take me away
on a journey so far
you take me so high
baby how can I lie
Don't bring me down
Don't bring me down
I'm flying baby what can I say
you take me away

You take me away
on a journey so far
You take me so high

baby how can I lie
Don't bring me down
Don't bring me down
I'm flying baby what can I say
You take me away

(repeat chorus to fade)
