

Refused, Hate Breeds Hate

Foundation of a nation build on fucking lies
Another welfare state tumbles and dies
System of oppression in the land of the free
Your equality and freedom means nothing to me
The rich pulls the strings of the politicians
To the voice of the poeple no-one is really listening
I thought it was called democracy
I don't think you know what the word means

Hate breeds hate
Hate breeds hate, breeds hate, breeds hate

People going crazy hunting their goals
Struggling to the top without any control
I see the green illusion developing greed
Overcoming common sense and what we really need
Diseases spreading all across the land
Crack kills so does guns in their hands
American interference in yet another war
Do the public know what the fuck for?

Hate breeds hate
Hate
