## Reggie And The Full Effect, Another Runaway So

Two weeks we

Were lovers

Now you feel left behind

Shall we be

Like others

Don't think it's wasting time

Now we'll be good

You knew we would

I still call you all mine

You should be

My other

Tell me that things are fine

Treat me like

No other

This time I'll make you mine

Now will be good

You knew we would

I'll Call you mine

I'd rather run away with you

(Runaway with you)

Than spend another day at home

(Spend the day home)

Baby I can feel the pain, girl

(Feel the pain girl)

Spending all of you nights alone

(All your nights alone)

And now that we can play

(Runaway with you)

Never ever picking up the phone

(Picking up the phone)

Then we can run and say

(Run and say)

That we have let the night become our home

(Night become our home)

You don't think that I can be

Watch you running out of me

I wish you'd never lock your door

Two weeks we, were lovers

Now you feel left behind

Shall we be, like others

Don't think it's wasting time

Now we'll be good

You knew we would

I'll still call you all mine

I'd rather runaway with you

(Runaway with you)

And never spend another day at home

(Spend the day at home)

Baby I can feel the pain, girl

(Feel the pain girl)

With you spending all your nights alone

(All your nights alone)

I tell you we can hide away

(We can hide away)

Never picking up the phone

(Picking up the phone)

And we can run and play girl

(Run and play)

And let the night become our home

(Night become our home)
