## Reggie And The Full Effect, Ode To Maheim Stea

One time when you ran from me I remember it clearly
A year ago and I'm here today
Just like you said that day
So simple in your own way
No doubt that both of us are insane

Do you remember the day we met Said words I can't forget So much I think of what you do Just like you said that day So simple in your own way No doubt that both of us are insane

Sometimes it gets instilled Sometimes it feels too real and I can say this is the deal I'd like forever and ever

I'll never love again Can't you see that I'm in I'll never know another you What you do
