

Reggie And The Full Effect, The Trooth

today is the day
i'm ripping you out
the pain you've given
is worth 175
leave me so I can have some sanity
get away from me
I m keeping a piece of you in a jar
so I can point and laugh at you from now till forever
you suck and it's time you left
I am tired of taking care of you
you never seemed to notice anyways
so pulling out your roots
go ruin someone else's life....
