

Regurgitator, Drinking Beer Is Awesome

Oh all the killer bees and all of the refugees
You know they're coming to get you
So quick, better run away
And live your life another day
We're hanging out in the suburbs
And we got personality, charm and personality
And drinking beer is awesome!

Quick, build the machines
Off to other galaxies
Another civilisation
Hey, let's get out of here
The floods and tsunamis are here
The waves break on the city
And we got personality, charm, and personality
And drinking beer is awesome!

I got the feeling I won't be straight when it's the end
And I got this fear that I won't be coming round...
I'll be falling down.

What are you gonna do if h5n1 gets to you
It's hard to run from the monster
There's no place to run away
So right here's where I'm gonna stay
I love it here in my home town
And we got personality, charm and personality
Drinking beer is awesome!
