

Regurgitator, I Piss Alone

i piss alone, ugh hoh
i don't want nobody to know
that i don't have the pressure of some of the other boys
they make a noise, it scares me so

i piss alone, alone
i don't want nobody to know
that i don't have the pressure of some of the other boys

leave me alone, alone
i just wanna be on my own
cos i haven't got the pressure of some of the other boys

i want a world where pissing troughs are obsolete
there's only rows and rows of cubicles

i'm so afraid
when i try it is often delayed
i stand and stare into the air
and then i might just put it away

so quiet in here
the only sound around is the fear
the other guy is pounding the wall
like he's shooting dear

i need a place where i can close and lock the door
there i can stop and let it flow
