

Rehab, Rattle My Cage

You say I am narcissistic and cold hearted, well yeah maybe
But I don't give a damn about you this much is true
My vision is blurry and my thoughts are hazy baby
I know I'm stupid so I am must be smarter than you

Keep your advise leave me alone and don't (rattle my cage)
Just let me wallow in my own chigones (rattle my cage)
I've known to bite the hand that feeds me so don't (rattle my cage)
I'm bossly in row now, everybody starin' at me goes (rattle my cage)

Do I look I want to be bothered, like I care about the glow, my life is a
commode
I like my depression a-la-mode, on the road, get off my back about my health
I like disease, I'll still be around when y'all are feeding trees
I don't want your speech or your sound advice, don't like people who seem nice
Talking in my head like a family of lice just let me wallow in my rage
Don't clean up my droppings and don't rattle my cage

Keep your advise leave me alone and don't (rattle my cage)
Just let me wallow in my own chigones (rattle my cage)
I've known to bite the hand that feeds me so don't (rattle my cage)
I'm bossly in row now, everybody starin' at me goes (rattle my cage)

Hey baby hey man I wont say, I want this whole town to leave me alone
Hey baby hey man I wont say, I want this whole town to leave me alone

Keep your advise leave me alone and don't (rattle my cage)
Just let me wallow in my own chigones (rattle my cage)
I've known to bite the hand that feeds me so don't (rattle my cage)
I'm bossly in row now, everybody starin' at me goes (rattle my cage)
