

# Relient K, At Least We Made It This Far

I'm so tired of the phone baby  
I don't like the tone  
Of the way we say I love you a thousand times  
We say those words but we can't look into each other's eyes

Oh and I guess we made it  
Or at least we made it this far  
And it all looks smooth from here  
Oh and in a future day there may be waves  
But I must say the skies have never looked so clear  
Oh and I guess we made  
Cause it ain't far to go from here

I'm so tired of the road baby  
Driving through the snow  
And just maybe you'll sit back  
Think about the times  
When we said those words and we looked into each other's eyes

Oh and I guess we made it  
Or at least we made it this far  
And it all looks smooth from here  
Oh and in a future day there may be waves  
But I must say the skies have never looked so clear  
Oh and I guess we made  
Cause it ain't far to go from here

You have given me a heart attack you'll never know  
What it's like to have to face the fact you might let go  
And I won't stand for any thought of that heaven's no  
Cause I will cling to you and always have a stronger hold

Oh and I guess we made it  
Or at least we made it this far  
And it all looks smooth from here  
Oh and in a future day there may be waves  
But I must say the skies have never looked so clear to me baby  
Oh and I guess we made  
Cause it ain't far to go from here
