

Remady & Manu-L, The Way We Are

It's a way we are
Take a little closer look
Still no superstar
I'm gonna say it loud

It's a way we are
Take a little closer look
Still no superstar
This is what we are, and what we need

It's a way we are, take a closer look
It's the way we move, like you know you should
It's a way we are, take a closer look
It's the way we move, don't you know you should

And these are the best things of your life
Never say never, say goodbye
Always believe in what you do
In what you do

It's a way we are
Take a little closer look
Still no superstar
This is what we are, and what we need

It's a way we are, take a closer look
It's the way we move, like you know you should
It's a way we are, take a closer look
It's the way we move, don't you know you should

It's a way we are
Take a little closer look
Still no superstar
I'm gonna say it loud

It's a way we are
Take a little closer look
Still no superstar
This is what we are, and what we need
