

# Remedy, Clear And Simple

(Anderson/Cichon)

There's a feeling  
Growing deep inside of me  
It's the only part of man  
Wee all like to see  
So let the goodness in man  
Triumph once again  
We'll fight fury  
Gonna stop the mighty storm  
We gotta plant new seed  
We need to help it grow

To let the goodness in man  
Triumph once again  
And let the loving in man  
Ease the pain away

CHORUS

You know it's just that simple  
You know it's just that clear  
From where I stand it's simple  
We gotta start to care

For this world of ours  
Hand in hand  
And heart to heart  
We gotta give more  
Let the caring start

To let the goodness in man  
Triumph once again  
And let the loving in man  
Ease the pain away

Repeat CHORUS X2

CHORUS Repeat

Hey yeah
