

Remedy, Death Or Glory

(Anderson/Jordan)

History's heroes were men of great deed
They paid the price when others had the need
There have been times the lions had to roar
Those sad dark years when they went off to war
There's been men who pushed fear aside

Give me death or give me glory
There'll be no talk of ever giving in now
Give me death or give me glory
No other choice we've got to fight to win now

As long as one voice cries against the storm

Someone to strike a light so freedom's flame will burn
As long as there are men whose love runs strong and true
Even in the darkest days there's hope for me and you
There's been men who pushed fear aside
With a song on their lips you'll hear them cry

Give me death or give me glory
There'll be no talk of ever giving in now
Give me death or give me glory
No other choice we've got to fight to win now
We gotta win!
