

# Remedy, It's Gonna Work Itself Out

(Anderson/Riley)

Well I know that the world seems so full of trouble  
There's so much heartache and pain  
And I know that there's times that it seems so futile  
To ever wanna try again

There are times I know when you're feelin' low  
You think that you'll never get a break  
But if you let yourself be ruled by these downers  
You'll be making such a bad mistake

It's gonna work itself out, it's gonna work itself out  
If you're livin' in doubt, better start to believe  
It's gonna work itself out

It's gonna work itself out, it's gonna work itself out  
If you live in doubt, start to believe  
It's gonna work itself out

Well I hear in the news nearly every day  
That some new war has begun  
And it's so sad thinkin' that desperate men  
Gotta make their way with a gun

And they spray the air with insecticides  
Bendin' mind body and limb  
And although it's cruel, we'd all be fools  
If we thought we'd have to give in

It's gonna work itself out, it's gonna work itself out  
So if you're livin' in doubt, better start to believe

It's gonna work itself out

It's gonna work itself out, it's gonna work itself out  
If you live in doubt, start to believe  
It's gonna work itself out  
It'll work out

Well I know there's no use sittin' around  
Cryin' over what's been done  
Because there's no solution, and givin' up now  
The race can still be won

And with a little hard work and determination  
You know that you're gonna pull through  
So don't ask for nothin', don't look to no one  
The future's all...up to you

It's gonna work itself out, it's gonna work itself out  
If you live in doubt, start to believe  
It's gonna work itself out

It's gonna work itself out, it's gonna work itself out  
Don't live in doubt, start to believe  
It's gonna work itself out

It's gonna work itself, it's gonna work itself  
It's gonna work itself...out!
