

Remedy, Snow Queen

(Rilen)

A-hello baby, good to see you back with the boys again
I like the way you say hello
I love the way you won't let us go when it's getting late
Take me to your daddy's car
Let me taste your honey jar again
Ooh yeah, once again

You're my snow queen, you're my snow queen
You're my snow queen, gimme your love

You're my snow queen, you're my snow queen
You're my snow queen, gimme your love

A-hello baby, felt so good when I saw your flashing eyes
When I get you down on the floor
I wanna hear you moaning and groaning for more
When I taste your diamond dust
Lordy mama make me wanna bust in two
All because of you

You're my snow queen, you're my snow queen
You're my snow queen, gimme your love

You're my snow queen, you're my snow queen
You're my snow queen, gimme your love
Ooh yeah

Well, a-hello baby, good to see you back with the boys again
When I taste your silver snow
Ooh baby makes me wanna get up and go
Take me for that velvet ride
I know you dig it when I'm slipping inside of you
Deep inside of you baby

Cause, you're my snow queen, you're my snow queen
You're my snow queen, gimme your love

You're my snow queen, you're my snow queen
You're my snow queen, gimme your love

You're my snow queen, you're my snow queen
You're my snow queen, gimme your love
