

Remission Blame, Rain Soul

Rain brings sadness
When drops are cold in glass
Who prowling I see by the window
Can give me nothing else
Except a special feeling
When I think about suicide
And I try to know the misery

Ref:

Drops of rain
Whose my pain
From dark clouds
Our world
Can you hear
Terrible scream in the wind
Its maybe voice of someone
Sad like you
Its not so easy
Like the place made of hate
Its made all of the glass
Absolute to destroy
The frozen give fear
I know theres no escape
One thought stops suicide
The big fear in pain

Ref:

Drops of rain
Whose my pain
From dark clouds
Our world
Can you hear
Terrible scream in the wind
Its maybe voice of someone
Sad like you
Sad like you 2x
Rain Soul 4x
