

# Remy Shand, The Way I Feel

Woke up and I got the feeling  
Nobody's gonna make it easy  
Left out when I wanna be inside  
As it's all goin' down

Your love is enough to feed me  
Held up for another evening  
Lord knows I could use the freedom  
For waiting around when I need you

Who are we to fall to pieces baby  
Worked so hard to see things through (see it through, see it through)  
Who are we to question each other mama  
I know what it takes to make it right for you

It's the way I feel (repeat 4 times)

This life there's no surprises  
So good well I can't defy it

So true that I wanna try it  
All without making a sound

Hooked up in a situation  
I'm down with the invitation  
New love and a revelation  
For keeping my head to ground

Who are we to fall to pieces baby  
Worked so hard to see things through (see it through, see it through)  
Who are we to question each other mama  
I know what it takes to make it right for you

It's the way I feel (repeat 4 times)

Here I come, here I come (repeat)

It's the way i feel (repeat 8 times)
