

# Remy Zero, I'm Not Afraid

Tonight

we can no longer fight  
we can never return to it  
once we begin to see  
through the eyes up over heaven  
would you ever return to me in the end?

i'm not afraid of you at all  
if you turned away they will all fall

tonight

we can no longer try  
all the time that i cried  
i want you again

no one's heard this  
no voice resounds  
no one's around  
i can't believe it  
what i have become  
no one  
its over now

i'm not afraid of you at all  
i'm not afraid tonight  
all your stars glowing bright  
i know i'll reach that light again  
again  
ooh again  
again
