

# Ren, What You Want

Oh my god, music these days is like... so lame  
I can't listen to the radio without cringing my big tits off  
I wish someone would take it back to the old school

Boom like dynamite, yes I get wild  
Blowing up the scene like a frickin' missile  
Quick hit the deck sir, here comes the pressure  
Sound so ill, better call the health inspector

People of the world, people all over the nation  
This is my jam, yes I bring the good vibration  
Lyric education, I'm elevating the ratings  
It's blatant, I'm painting the shape of this great innovation I'm making

When I step up on the scene  
Fresh like grass when the grass is green  
Style that can blast ya, I'll be the master  
Sword in the stone, I'm the new King Arthur

Could I get a minute to finish this pinnacle of music  
Fuse it with blues and then use it carefully, please don't abuse it  
Lose it like a mental patient, schizophrenic conversation  
"Hi, Ren! My name is Ren! Nice to meet you! Oh, that's great man..."

I got what you want  
I got what you need  
Old-school kicks with a new school twist  
Banging on my mp3  
I got what you need  
I got what you want  
A vintage classic, bounce like elastic  
Old-school song

Devastating worlds like a whirlpool, tough like a turtle  
I rock a whole room without a single rehearsal  
Face turned purple blowing off steam  
I glow like Christmas, watch me gleam

Come out the blue like a shark attack  
I got you in my jaws, how you gonna react  
When I snap my trap, I crack your back flat  
When I wiggidy wiggidy wiggidy snap my trap

Jump in, jump out, shake it all about  
Move to the sound now sit the fuck down  
Sit the fuck down? Sit the fuck down!  
I'm King like Kong, so pass me the crown

I'm warrior like Xena, Julius like Caesar  
Cooler than an ice cube sitting in your freezer  
I'm Rocky but I'm meaner, I'll turn you like I'm Tina  
Flow could turn and atheist into a believer

I got what you want  
I got what you need  
Old-school kicks with a new school twist  
Banging on my mp3  
I got what you need  
I got what you want  
A vintage classic, bounce like elastic  
Old-school song

Flipping sick kick flips, I'm wicked, tricky I'm lippy I'm sick  
Ripping, your tripping no kidding, dip in, then rip up the set

Quick with the rhythm I give 'em shivers, I'm triggering kids  
Syllables Biblical, mythical, critical, hold my breath

Hold my breath, nothing more nothing less  
Puffing draw, passing left, busting raw on her chest  
I digress, I'm a menace, I'm a mess  
I'm the baker make the bread, undertaker raise the dead

I got what you want  
I got what you need  
Old-school kicks with a new school twist  
Banging on my mp3  
I got what you need
