

Renard, Amber Starlight

Amber starlight
Break away the day and bring to me the night
If I should rest before this ends
Break the clouds, make them turn to sand

Amber starlight
Break away the day and bring to me the night
If I should rest before this ends
Break the clouds, make them turn to sand

Starlight shine on me
Starlight shine on me
Moonlight across the sea
Moonlight across the sea

Amber starlight
Break away the day and bring to me the night
If I should rest before this ends
Break the clouds, make them turn to sand

If I break and fall
If I break and fall
Come down to me, hear me call
Come down to me, hear me call

Amber starlight
Break away the day and bring to me the night
If I should rest before this ends
Break the clouds, make them turn to sand

Amber starlight
Break away the day and bring to me the night
If I should rest before this ends
Break the clouds, make them turn to sand

Amber starlight
Amber starlight

Amber starlight
Break away the day and bring to me the night
If I should rest before this ends
Break the clouds, make them turn to sand
