

# Renato, Singing this song ( Eurovision 1975 )

If things shouldn't go right, your stars are not twinkling so bright  
Don't cry, for what's the use to be counting your blues?  
Just say you had a date and your friend turned out to be late  
Cheer up, think it's a boon, go on, whistle a tune  
Nothing will change what had to be done, it just happened to be  
Pack your troubles and make fun, you'll enjoy it, you'll see  
So do listen to me, whatever your trouble may be  
Join in and come along with a smile and a song  
It's good to understand that the world is not at its end  
Forget what beats you inside, keep it out of your mind  
Nothing will change what had to be done, it just happened to be  
Pack your troubles and make fun, you'll enjoy it, you'll see  
Sure love not to be hurt, we were born to live on this Earth  
So when something goes wrong, join in singing this song  
Sure love not to be hurt, we were born to live on this Earth  
So when something goes wrong, join in singing this song
