

Renderfly, The Exploding Ticket

Here it comes, here it comes
Here it comes, here it comes
and I know when it goes, it won't come
back again

Here we go, here we go
Here we go, here we go
and I know I can feel it coming on,
I've been waiting for so long,
gonna take us to the places we belong,
we belong...

It's the exploding ticket

Let's make love, let's make love
Let's make love, lot of love
yes I know, I can feel it coming on,
I've been waiting for so long,
gonna take us to the places we belong,
we belong...

All aboard, all aboard, all aboard, God I'm
bored,

'cause I know, I can feel it coming on,
I've been waitinhg for so long,
gonna take us to the places we belong,
we belong...

And the invincible, shrinking, extreme
Call it a day we're leaving tomorrow
Without regrets of reason for sorrow
