

Rene Froger, Go

I never felt like this before
seeing you again only makes me sad
I remember the times when we
were so in love and had everything
it makes me so sad

time is meant to heal the pain I thought was gone
but seeing you again has made it carry on

Go before you break my heart once more
I know..
thats what youve come here for
Go before you say I love you the way
you did the day before you walked away from me

looking back on the times we had
things were beautiful then
but how quick they changed
One day you were so in love with me
then the next.so suddenly
he came along

time is meant to heal the pain I thought was gone
but, seeing you again has made it carry on

Go before you break my heart once more
I know..
thats what youve come here for
Go before you say I love you the way
you did the day before you walked away from me

oehhoeh

time is meant to heal the pain I thought was gone
but, seeing you again has made it carry on

Go before you break my heart once more
I know..
thats what youve come here for
Go before you say I love you the way
you did the day before you walked away from me
