Rene Froger, Go

I never felt like this before seeing you again only makes me sad I remember the times when we were so in love and had everything it makes me so sad

time is meant to heal the pain I thought was gone but seeing you again has made it carry on

Go before you break my heart once more I know.

thats what youve come here for Go before you say I love you the way you did the day before you walked away from me

looking back on the times we had things were beautiful then but how quick they changed One day you were so in love with me then the next.so suddenly he came along

time is meant to heal the pain I thought was gone but, seeing you again has made it carry on

Go before you break my heart once more I know.. thats what youve come here for Go before you say I love you the way you did the day before you walked away from me

oehhoeh

time is meant to heal the pain I thought was gone but, seeing you again has made it carry on

Go before you break my heart once more I know.. thats what youve come here for Go before you say I love you the way you did the day before you walked away from me
