

Rentrer en Soi, Amongst Foolish Enemies

I am surrounded by foes I want to kill all
It rises and is full of hatred and chaos
fukai gekijou no nikushimi oshikoroshi
Should even yourself be good? A crowd of worthless fools
Disappear from the very front
I want to shoot everything through with the machine gun
It seems to go mad
kono te ni nokoru ZARAtsuita zoushitsu
kono me ni utsuru GIRAtsuita genjitsu
You who are morbid are the same as a useless pig
The dregs who put on a mask of a person
musuu no wana ni kakerareta akai nikushimi no koe
God just said "Dead" pull up
You cannot understand anything Why do you laugh and investigate me
Justify yourself away Sickening pessimist hypocrite everything
harisakesou kokoro no kizu ubawareta omoi wa
sakebi dake kyouki dake kareta zetsubou e itsumade mo
tekei nomikonde shisen ni uzumoreru dokusareta mure ga ujauja uja
ima sugu koko kara kieusetete kure arittake no konton ni oboreta mama
Amongst foolish enemies
Amongst foolish enemies
Amongst foolish enemies

I am surrounded by foes I want to kill all
