

# REO Speedwagon, I Don't Wanna Lose You

You left this morning on an early plane  
You left your picture behind to haunt me  
You left in a steady rain  
You say you'll miss me, say you want me  
I'm left this mornin with a world of doubt  
I'm left this mornin indecently exposed  
So much we never did talk about  
And your kiss goodbye, said the case is closed

(chorus)

I don't want to lose you  
I don't want to lose the best love that I've ever found  
Don't want to lose you  
Why didn't I cry when you said goodbye  
Why didn't I break down, break down and say  
I don't want to lose you

We met last night in a public place  
And your new lover was just across the street  
But tears washed across your face  
Girl I wanted to, hold you close to me

I don't want to lose you  
I don't want to lose the best love that I've ever found  
Don't want to lose you  
Why didn't I cry when you said goodbye  
Why didn't I break down, break down

I remember all the things that we did  
The warmth of your smile  
And your tender touch  
I always knew I cared about you girl  
I just didn't know how much
