

# Reptilian, Thunderblaze

All them storm clouds piling up lightning strikes tonight  
Look up the blackened sky devoured the last light

Se blazing fire in your eyes  
Your head's in the eletric vice

Do you feel the pain in the thunderblaze? A burst of fire  
Got eletric veins in the thunderblaze. It takes you higher  
Make you wish the oain return delivering your heart body and soul  
The sky begins exploding the death roll  
Immortal thunder rushing when you're in the fire

The sky reveals its face of rage, releasing acid rain  
Now you're in the power storm, all you feel is pain
