## Republica, From The Rush Hour With Love

No Android dreamt of Victoria or tube station allergens

Just allergic to the 20th century

But hating every morning

Shouting out but nobody hears

She said she loved someone

But it didn't begin

So each morning - I'm calling

From the rush hour with love

From the rush hour with love

From the rush hour with love

Stop sleeping, stop sleeping

I came back as an insect

But in another space and time

I could love and share and feel my feet in the sand

Stuck down the back of the Westway

Time check 8:15

He said he loved someone

But he didn't love him

So each morning - I'm calling From the rush hour with love (get up wake up)

From the rush hour with love (gonna get gonna get gone)

From the rush hour with love (get up - stop)

Stop sleeping (sleeping) stop sleeping (sleeping)

From the rush hour with love

From the rush hour with love (gonna get gonna get gone)

From the rush hour with love (get up wake up)

Stop sleeping (sleeping) stop sleeping (sleeping)
