

# Repulsion, Horrified

Chill climbs up your back  
Nightmares of death  
Black haze pollutes your mind  
Fear will infest  
No warmth to comfort you  
You see only black  
Snarling faces staring at you  
Tormenting evil laughs

Horrified

Adrenaline is pumping fast  
Sanity cannot last  
Grab your head, scream in pain  
You know you won't be sane again

Horrified

Morbid thoughts obsess your mind  
You live a hellish dream  
You feel the horror looking down  
A face you cannot see  
Paranoia in the dark  
You sense that death is near  
You try to scream for help  
But not a soul can hear

Horrified

Deep within your consciousness  
Horror is unleashed  
Stare into the face of death  
A hellish mutant beast  
Pressure builds inside your brain  
It's about to explode  
The blood drains from your head  
You lie there, still and cold
