

# Repulsion, Repulsion

Worm infested rotten flesh - The stench is what I lust  
Vomit on a corpse face - Maggots eat the crust  
Fornicating zombies in a grave that reeks with death  
Rotten fetus in the garbage - Hanger through it's head  
Rabid dogs feed on a corpse, the bones are stripped of flesh  
Twisted and disfigured children - Struck by violent death  
Sickened in the mind by all the death that you have known  
Forever you will smell the stench of rotting flesh and bone

Torturing your brain, driving you insane  
The horror that you feel unfortunately is real

Pungent oozing pus - Drives you to disgust  
Vomit on the floor - Can't withstand the gore
