

Revis, Your Wall

"You've got a way
Of watching the world divide
You into place
Direction is lost in flight
Everyone is gone
Let it slip away
Look at you, at the end of it

Chorus:
This moment will rise
And takes
You further inside
In through your wall again
That covers you once you're in
In through your wall again
Until you can reach the end

I can see through
When communication is gone
The pieces of you
Fall down from the cloud you were on
Everyone is gone
Let it slip away
Look at you, now you're at the end

(Chorus)

Empty your head and the rest will come
I missed you, then the moment was gone
(Look at you now)

Chorus"
