

Rex Gildo, Akropolis Adieu

There's a cold wind, I feel it blowin'

I'm lost before I start

There's a woman, without me knowin'

With a circle, a circle around my heart

It's no use in fighting

What took hold of me sight unseen

Chorus:

It's unfair, when you love someone

Reason fails

, and your feelings rule

The will is weak, but the pull is strong

When you love someone

There's a feeling of lost control

And it's got me scared as hell

But the one thing that keeps me goin'

I keep lookin' for someone to break this spell

There's no easy answers

Nothin' is ever in black or in white

Chorus

When you love somebody

Chorus--(Out)
