Rex Goudie, Run

1.We're just two people Riding in circle

That's spinning around Just everyday people

Searching for something

We've Already Found And I'm just a guy

Who's in love with a girl

Not in front of me

Now you're so far away

And I need you right here in my arms!

So, Baby just run

Take a bus, Take a Plane

Take a train

Baby just run!

Run as fast as you can

Girl you'll find your way back

Cause no matter wherever you are

There's no place on this earth thats to far,

Run

2.We're just two people

Wishing that we were together tonight

Just everyday people

Trying to make sense of this puzzle called life

And I'm just a guy

Who's in love with a girl

Not in front of me

Now you're so far away

And I need you right here in my arms!

So, baby just run

Take a bus, Take a plane

Take a train

Baby just run!

Run as fast as you can

Girl you'll find your way back

Cause no matter wherever you are

There's no place on this earth thats to far,

Sooner or later it's over

Passing you by and it's gone

There's Not enough time left to wonder

If your where you belong!

Take a bus, Take a plane, Take a train

So, Baby just Run!

Take a bus, Take A plane, Take a train

Baby Just Run!

Run as fast as you can

Girl you'll find your way back

Cause no matter wherever you are

There's no place on this earth thats to far,

Run
