

# Rez Band, Defective Youth

Don't ask about our problems  
We don't know ourselves  
We crave success and pleasure  
Materialistic cells  
Send us off the school  
But make sure that we don't pray  
Drugs and sex and violence  
Teenage passion play

We are twisted  
We are rotten  
No 16s answers, please  
We are handsome  
We are modern  
Got a terminal social disease

Defective youth!  
Defective youth!  
Defective youth!  
Why won't you listen

Defective youth!  
Defective youth!  
Defective youth!  
Why won't you listen

Please don't analyze me  
I'm gone beyond recall  
Rule books, revolutions  
Don't mean that much at all  
What's good for me is good  
There's only self and void  
Indifferent adolescent  
A teenage android

Defective youth!  
Defective youth!  
Defective youth!  
Why won't you listen

My heart is at the North Pole  
Needs moral antifreeze  
Church people pushing answers  
You want me on my knees  
You say He's the solution  
You tell me you got love  
I say you gotta prove it  
When push comes to shove

Don't ask about our problems  
We don't know ourselves  
We crave success and pleasure  
Materialistic cells  
Send us off the school  
But make sure that we don't pray  
Drugs and sex and violence  
Teenage passion play
